# More than just calls and data

You might be a person who makes a lot of calls, but doesn't use much data. Or you might be someone who needs to be online all day at 4G speeds. Either way, Vodafone has a plan for you! But a plan with Vodafone is more than just calls and data. Vodafone makes sure that you're getting what you need.

We are always improving our network to give you the best network experience every day. And your plan also covers you throughout the EU. And you can switch data bundles mid-plan. When you choose to get a smartphone from us with your plan, you get to decide how you'll pay for your smartphone: all at once or in instalments. And you can change your smartphone whenever it's right for you.

## That's why you choose Vodafone

### Unlimited data for the first 3 months

For the first 3 months, you get unlimited data to enjoy our fast 4G network in the Netherlands to the fullest. We keep you informed of your data usage as you go. That way, you know how much data you're using, so that at the end of the 3 months you can choose the right plan for you. This is something that only Red plans offer.

### All the mobility of your home network, anywhere in the EU

With Vodafone, you take your plan with you when you travel. Because you can use all the benefits of your plan anywhere in the EU. And you can rely on the biggest 4G network while you're abroad.

### Change your smartphone whenever it's right for you

Dropped your smartphone? Lost it? Or just ready for your next smartphone? With Vodafone NEXT!, you can change smartphones just four months into your contract — or with a SIM Only plan, even just 2 months in!

### Our super 4G network

At Vodafone, we are always improving our network to give you the best network experience every day. We even make sure that you stay accessible in the most hard-to-reach places, because now you can make calls both on 4G and at home through your own WiFi connection.

# How our plans work

1

## Choose your plan

Do you make a lot of calls, but don't use much data?  
Or are you more of the 'online all day,  
every day' type? We have a plan for everyone.

**Start**

If you mainly need to stay reachable, but don't surf on your smartphone much.

**Red**

If you need to do a lot of surfing as well as calling.

All our plans are also available as SIM Only.

2

## Choose your smartphone and how much you want to pay

Pay per month or all at once. Or a combination of both. Your monthly payment stops automatically after 12 or 24 months.

3

## Choose your extra services

Make your plan complete with even more add-ons, like insurance, Entertainment, or a MultiData SIM.

# Benefits for all

## The My Vodafone app puts everything in your hands

You can see your usage, invoice and balance at a glance. You can also use the app to activate BloX or chat with our customer service.

## Choose how you want to stay online when your bundle ends

Even if you've used all your data, you don't have to miss a thing, because you choose how you want to stay online. The standard rate for data outside your bundle is €2 for an additional 200 MB. Don't want the extra costs? Then you can choose to stay online at a slower speed with BloX Limited Internet. Or go for full speed ahead with the cost-effective Extra Data bundle (1, 3, 5 or 10 GB).

## The Network Crew is on duty

The Network Crew is a special team at Vodafone dedicated to making sure that our network keeps running optimally throughout the Netherlands at all times. If you ever do encounter a problem, they jump into action to find the cause and come back to you with a solution. If within the first 30 days after the start of your plan, you really do encounter a problem that they cannot solve, then you can simply cancel your plan. With no extra cost to you.

## Advantages abroad

Go on vacation and take your plan with you! With all our plans, you can call, text and use data anywhere in the European Union. And you can rely on the biggest 4G network while you're abroad. If you need more than your plan, or if you travel outside the EU, we've got some other cost-effective bundles for you.

### Need extra data?

Use our extra data bundles to get 1, 3, 5 or 10 GB of additional data, starting at just €7.50 per month.

### Vacationing outside Europe?

With our specially priced data bundles you can keep using your smartphone outside the EU without breaking the bank. Bundles of 30 calling minutes, 30 texts, 30 MB and 30 minutes of received calls outside the EU start at just €5 per day (activated as standard when you leave the EU), and 100 calling minutes, 100 texts, 100 MB and 100 minutes of received calls outside the EU for just €8.50 per day.

## Save on calls abroad from the Netherlands

### BloX 100 EU calling minutes

With BloX 100 EU calling minutes, for just €5 per month you can save on calls from the Netherlands to landlines and mobile numbers in the EU.

### BloX 50 World calling minutes

With BloX 50 World calling minutes, for just €12.50 per month you can save on calls from the Netherlands to landlines and mobile numbers anywhere in the world (certain countries excepted).

# Choose your add-ons

## Two SIM cards, one data bundle

With the MultiData SIM, you get an extra SIM card for your tablet without an additional data bundle. This MultiData SIM allows you to use all the data from your smartphone plan from either your smartphone or your tablet. This service is available for €5 per month.

## Stay reachable with a replacement smartphone

Smartphone broken? With the Replacement Smartphone Service, we pick it up and deliver you a comparable smartphone to use while we're repairing yours (if you bought yours through Vodafone; for terms and conditions, see [vodafone.nl/voorwaarden](http://vodafone.nl/voorwaarden)). This service is available for €2.54 per month.

## Insure your valuable possession

The latest smartphone or tablet is a big investment, so it's nothing short of a minor disaster if yours gets dropped or stolen. The smart thing to do is make sure you backup everything, so at least your data is safe. But it's even smarter to insure your valuable possession for repair or replacement.

With Vodafone Garant, for just €5.50 per month you're covered for a broken screen, abuse of your calling minutes and the costs of a new SIM card. Or go all the way with the Garant Top package. Then you're covered for loss and theft as well. Compare the two packages with the table below. You can choose one of them up to 30 days after buying your new smartphone.
